

## Dwell

we cannot only dwell  
in the certain terrains  
of catastrophe and  
impending descent

we must also try  
to sing uncertainty  
over it by and  
and be overed by it  
by chance  
by effect

so many disruptions  
this town's ground  
Town and compacted  
poisoned witless  
if only for the settled weeds  
in full numbers unnoticed —  
this being in  
often futile lamentation  
of the creaturely

be born of ground  
again ground not town  
again where leaves  
will settle and build  
again
